BITS SCHOOL OF MANAGEMENT
Term 6, Block 33, 2025 - 26
Course Outline

Course Title: Organisation Change Management

Faculty: Prof. Ranjeet Nambudiri

Dates: Feb 2nd to Feb 15th, 2025

Contact details: ranjeet@iimidr.ac.in

Academic Associate: Malvika Mishra

Contact details: Malvika.Mishra@bitsom.edu.in

Office Hours: After class hours with appointment

Course Description:
Organization Development and Change (ODC) deals with organizational change processes and the impact on people during change. The course begins by understanding the classical models of planned change and provokes participants to question the need for change. The course then discusses issues like managing conflict and building consensus toward change. Participants experience the diagnosis of group and organizational processes. The course ends with a simulated exercise where participants are encouraged to examine various issues related to organizational change as they make recommendations for firm wide change.

Course Objectives :
The basic objective of this course is to provide participants with an integrated and comprehensive view of the field of Organization Development (OD). The course aims to present, in a clear and organized manner, the classical as well as contemporary approaches, concepts, and techniques of this emerging discipline. The course also aims to present OD from an experiential learning approach; that is the students not only read the concepts but also practice and experiment by using some of these techniques in a simulated organizational situation. It is expected that as the students' progress into this course, the simulations will facilitate growing knowledge and experience, thereby building a foundation of to carry forward into corporate career.

Pedagogy/Teaching Method:
Every successful OD effort is the result of a concerted group effort. This course tries to imbibe the culture of group learning and effort and hence team activities will be used extensively during the course. The course will be delivered through a combination of classroom discussions, case studies, team activity and experiential learning through simulations. It is expected that all participants come

prepared in terms of reading and analyzing the case and handouts for each session. This course is not designed to be instructor-driven but rather depends on participant preparation and interaction. The course is driven by student involvement and will make use of several simulations and in-class exercise. Value addition from this course is largely a function of student involvement in these activities.

Course Materials:
Mentioned session wise

Author	Title	Publisher	Remarks, if any
Cummings And Worley	Organizational Development and Change	Cengage	Reference book

Assessment: Maximum Marks 100

1. End term 25%
2. Class participation 25%
3. Group assignments 25%
4. In class quizzes 25%

The group size is 6 or 7 members. The students can form their own groups.

POLICY:

Class Policies

We will start classes on time.

If you are late, the instructor has the choice of not allowing you to attend or creating creative punishments for tardiness.

Attendance Policy

The attendance policy as laid out by the Programme Office applies. Please refer to your student handbook for details.

Honour Code

BITSoM takes the honour code seriously, and so should you. The student handbook contains details on the honour code policy at BITSoM. You are expected to abide by an honour code and follow a culture of honesty. Please ensure that you read the relevant section(s) in the handbook. Feel free to ask us in case you have any questions.

Coding scheme for all course work:

In-class exercises and quizzes	AC-I

Session Schedule

Module I: INTRODUCTION TO PLANNED CHANGE
Module Objective: Introduce the classical models of change, viz. Action research and Appreciative Inquiry. Examine various challenges pertaining to organizational change, like identifying the need for change, resistance to change, and cultural issues in change management.

Session 1 and 2 Introduction to planned change
Objective: Introduction to planned change and expectation setting
Reading: Are your change ready: Preparing for organizational change
Case /Exercise: TGIF (will be handed out in the class)
Simulated Exercise: The psychological contract

Session 3 Large scale change – need and challenges
Objective: Challenges in implementing change
Reading: Museum management and marketing (pp. 20-29). Routledge.
Case: Grainger, S. (2008). Roaring Dragon Hotel.

Session 4 The OD Process
Objective: Understand the OD process, Entering into an OD contract; OD consultant – role and style.
Reading:

Johnson, L. (2008). Helping employees cope with change in an anxious era. Harvard Management Update, 13(12), 3-5.
Simulated exercise: The OD practitioner style matrix

Session 5 Resistance to change
Objective: Managing resistance to change
Reading:

1. Vermeulen, F., Puranam, P., & Gulati, R. (2010). Change for change's sake. Harvard business review, 88(6), 70-76.
2. Ford, J. D., & Ford, L. W. (2009). Decoding resistance to change. Harvard business review, 87(4), 99-103.

Case: Gabarro, J. J., & Kaftan, C. (2012). Jess Westerly at Kauflauf GmbH.

Module II: The OD Process
Module Objective: The OD process is discussed in this module. The module begins by examining issues pertaining to the consultant-client relationship and OD consulting styles. Participants will the experience the diagnosis of groups and organizations through various diagnostic tools.

Session #s 6 and 7 Group level diagnosis
Objective: Diagnosis of groups, discussion on different diagnostic models. Experience how to diagnose a group using sociometric techniques.
Simulated Exercise: The Young Woman

Session #s 8 and 9 Process Consulting – I
Objective: Understanding and using process consulting
Reading: Susskind, L. (2005). Breaking Robert's Rules: Consensus-Building Techniques for Group Decision Making. Negotiation, 3–5.
Simulated Exercise: Sigma Computers / Apex Oil Spill

Session # 10 Process Consulting – II
Objective: Understanding and using process consulting Case Beer, M., & Rogers, G. C. (1995). Datavision (A). HBP Education Case Study Collection. Session 11 The Diagnostic Process Objective: Discussion on the basic diagnostic model or the open systems model. Understanding the three levels of analysis for organizational diagnosis Reading: Class discussion led by the instructor Case: Bansal, Montogmery, MacMillan (2020). Maple Leaf Foods: Changing the system

Module III: Implementing Change in Organizations
Module Objective: Discussion on change interventions across different levels, including team development, organizational process interventions and structural interventions.

Session 12 Individual level change interventions
Objective: Examining change interventions targeted at the individual unit of analysis
Reading: Cummings, T. G., & Worley, C. G. (2009). Interpersonal and Group Process

Approaches. Organization development & change (9th ed., pp 253- 273). SouthWestern/Cengage Learning.
Case /Simulated Exercise: TBD

Session 13 Group level change interventions
Objective: Team development interventions; Inter-group processes
Reading:

1. Kling, J. (2000). Tension in teams. Harvard Management Update, 14.
2. Hardaker, M., & Ward, B. K. (1987). How to make a team work. Harvard Business Review, 65(6), 112.

Case: Casciaro, T., Edmondson, A. C., McManus, S., & Roloff, K. (2007). Leading change at Simmons (A) (pp. 408-062). Harvard Business Publishing.
